Marshall-Managed Experiment Part of Mir Spacewalk Wed.

U.S. astronaut Scott Parazynski and Russian cosmonaut Vladimir Titov will conduct a spacewalk from Mir starting at approximately 1:44 p.m. CDT Wednesday. During the spacewalk, they will retrieve four experiments, including one Marshall-managed experiment, the Passive Optical Sample Assembly-1. The investigations are aimed at determining the effects of the space environment on the space station. The spacewalk will be shown live on NASA TV.
